

Become a book friend and support Narratives in Malaysian Art!

Narratives in Malaysian Art is an independent publication project by Malaysian art writers. This illustrated multi-volume set of essays and interviews will bring together the histories, themes and issues that have made Malaysian art such a rich and significant field, to be published in English and Bahasa Malaysia.

We seek sponsorship and contributions from members of the community to make this project a reality. We hope you will see this as an opportunity to invest in research, knowledge and critical discourse, to help ensure that our artistic heritage remains alive and appreciated by a wider audience.

All profits from book sales will be channelled to a USM Visual Art Research Fund at Universiti Sains Malaysia to support further independent research and publication projects.

To find out more about the project and for a full proposal, please go to www.rogueart.asia/ra/publications.

To make a contribution, please complete this form and send it together with your cheque or bank in slip so that we may send you a receipt.

For all contributions above RM200, contributors will receive a KawanBuku badge specially designed by Malaysian artist Ise (Parking Project).
